22 Aug 94

Mr. Richard Powers
North Carolina Department of Environment,
Health and Natural Resources
Division of Environmental Management
Groundwater Section
Washington Regional Office
1424 Carolina Avenue
Washington, North Carolina 28405

Dear Mr. Powers:

You are hereby invited to attend a Technical Review Committee (TRC) meeting for the Air Station on Thursday, September 22, 1994. This meeting will be held in the Ready Room at the Officer's Club aboard the Air Station. This meeting will begin at 9:00 a.m. and will end at approximately 3:00 p.m.

Please find enclosed an agenda for September 22, 1994, and a location map identifying the Officer's Club. An access letter will be sent to the pass office at the front gate authorizing a vehicle pass for entry into the Air Station.

The main topic of discussion will be the Corrective Measures Study (CMS) and Draft-Final Construction Project Plans for Sites 5 and 17 which were previously forwarded to you for review and comment. The CMS Project Plans identify the proposed corrective measures alternatives for addressing Site 5 and 17.

We hope to see you at the TRC meeting as your involvement is essential to the Air Station's efforts. If you need any assistance or have any concerns, please feel free to contact Ms. Renee Henderson of the Environmental Affairs Department at (919) 466-5391.

Sincerely,

R. D. NELSON
Environmental Affairs Officer
By direction of
the Commanding General
